

CWTL Tablet Tender - Q&A Sheet

Question:	Answer
Would you consider to lower the Bluetooth specification from Bluetooth 4.2 to 4.0?	Yes
We need to understand the details for the War Child system which War Child will provide	War Child will provide the following applications: <ul style="list-style-type: none"> - Multiple educational games (APKs) - Multiple content (MP4 video's and files) - A single MDM (APK) which requires "Device Owner" privileges - Multiple configuration files
The removal of GMS is impossible for all from 1st November due to Google restrictions	As a background – the tablets will be used in an offline (non-internet) environment so GMS (Youtube, GMaps, Gmail etc) are unnecessary. Since Google does not restrict unavailability of GMS for hardware vendors, please elaborate in your proposal if technical restrictions in removing GMS apply from your end.
Android 7 is no longer possible, it is Android 8 (Also for MDM purposes)	War Child is already effectively running custom apps that provide MDM functionality from Android 5.0 up to 7. However, we expect that compatibility of Android 8 needs to be confirmed by testing. The tablets that you provide as samples as part of your proposal will confirm this.
In chapter 20.3, <i>"Tablets are thus required to be delivered with a light-weight version of an Android operating system only, which War Child will provide"</i> . Does this mean we should provide only hardware and the full Android operating system will be provided by War Child or do you need us to provide a tablet with our Android operating system (meaning tailored for our hardware with our design house) ?	The vendor shall be responsible for delivering both tablet and a pre-installed tailored Android operating system. However, any vendor-specific applications not needed for the CWTL programme (e.g. 'bloatware') should be removed (e.g. other games, email apps etc). Please provide us with a list and description of all packages you consider part of the 'tailoring'
What is the expected quantity for the first delivery on January 31 st in Khartoum as this is a in really short time and we need to evaluate our production/stock capacity?	4000-6000 units
Can you provide us with an expected price range for the tablet and for bundle (tablet + accessories)?	See tender document for explanation on how proposals will be evaluated.
At Point 2 Purpose of the call. In the Picture you talk about 5 lots and end about 4 lots. Probably a typo?	LOT 1 Computer Tablet LOT 2 Computer Tablet Cover LOT 3 SD Cards LOT 4 Tablet Stylus

	LOT 5 Headphones
At 20.3 one last sentence: "relevant content" what do you mean by that?	Audio and visual content for the game
21.1 is first delivery January 15 but in the schedule is January 31st. What is the correct date?	15 th January
22.2 How long does it take for the inspection to be completed?	Testing requirements and their impact on delivery will be discussed with the successful bidder
